# Rack Mount Bracket

RA1000 / RA1001 / RA1002

ATEN offers a variety of flexible rack accessories to meet the needs of IT personnel in managing racks and installing equipment. All accessories are designed with functionality in mind to ensure the safe operation of both equipment and personnel, and can be applied flexibly to accommodate different rack configuration requirements.

The ATEN Rack Mount Bracket must be used in conjunction with ATEN's Fixed Rack Shelf. It is installed symmetrically on the left and right inside the rack to support IT equipment such as servers and network switches, with a total load capacity of up to 50 kg. It is available in three depth options: 540 mm, 640 mm, and 695 mm, and comes in both white and black color variants. It is suitable for ATEN 19-inch racks, server racks, or network racks and can be flexibly installed at any height on the adjustable vertical rails of the rack.

Note: Rack mount brackets are sold in sets of 2 pieces.

RA1002 White   RA1002 Black
