

5U Hinged & Vented Rack Panel (Lockable)

RA2300

ATEN offers a variety of flexible rack accessories to meet the needs of IT personnel for managing racks and installing equipment. All accessories are functional, ensuring the safe operation of equipment and personnel, and can be flexibly applied to meet different rack configuration needs.

The ATEN 5U Hinged & Vented Rack Panel features a lockable design and is intended to be installed in front of 4U-high equipment to prevent accidental contact, enhancing safety in operation. It is especially suitable for public environments such as shopping malls, offices, classrooms, and other shared spaces, where protecting sensitive equipment from unauthorized access is essential.

Designed with ventilation slots, the panel helps maintain airflow and cooling efficiency within the rack. It is compatible with ATEN and other brands of 19-inch racks.

Features

- Lockable design for added equipment security
- Mounts in front of 4U-high equipment to prevent accidental contact and improve safety
- Ideal for use in public environments such as shopping malls, offices, and classrooms
- Ventilation design enhances airflow and heat dissipation inside the rack
- Compatible with ATEN and other brands of 19-inch racks
