# Cable Management Hook

RA2900 / RA3000

ATEN offers a wide variety of flexible rack accessories to meet the needs of IT personnel for managing racks and installing equipment. All accessories are functional, ensuring the safe operation of equipment and personnel, and can be flexibly applied to accommodate different rack configuration needs.

The ATEN Cable Management Hook features a 1U height design and can be installed inside the rack to effectively secure large bundles of cables for vertical routing, preventing tangling and knotting. It can be mounted at any position inside the rack to suit specific application needs, helping to maintain organized cabling and improve overall manageability. Compatible with ATEN or other brands of 19-inch racks, server racks, and network racks.

Note: RA2900 is sold in sets of 5 pieces; RA3000 is sold in sets of 6 pieces.

RA2900
