19" EIA Rail Adapter Kit (2 RU / 23 RU)

RA8300 / RA8400

ATEN provides a wide range of flexible rack accessories designed to meet the needs of IT professionals in managing racks and installing equipment. All accessories are built for functionality, ensuring equipment performance and user safety, while supporting various rack configurations.
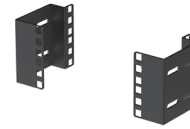

ATEN 19" EIA Rail Adapter Kit (2 RU / 23 RU) is an exclusive accessory for ORV3 racks, designed in compliance with the Open Rack V3 Base Spec defined by the Open Compute Project (OCP). As ORV3 racks have a 21" internal width, the adapter kit enables the installation of 19" EIA-standard IT equipment, greatly enhancing rack compatibility and usability.

2 RU 19" EIA Rail Adapter

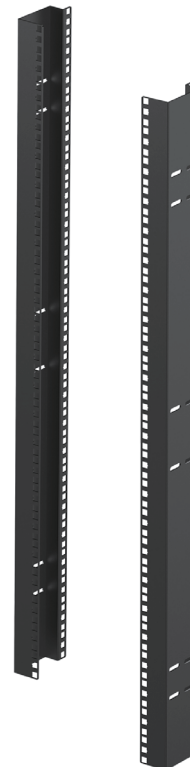

23 RU 19" EIA Rail Adapter

Features

- Allows 19" EIA-standard IT equipment to be installed in ORV3 racks, enhancing compatibility and usability
- Available in 2 RU and 23 RU heights, offering flexible installation at any rack unit position
- Compatible with ATEN standard ORV3 racks (44 OU / 48 OU) and customized racks (6 OU / 25 OU)

Note: The 2 RU rail adapter is only applicable to 6 OU customized racks; the 23 RU rail adapter is compatible with both 6 OU and 25 OU customized racks.
