

Slide and Rotate Rack (10U / 12U / 15U)

RC2200 / RC2201 / RC2202

ATEN has over 30 years of experience in rack design and manufacturing, with certifications including UL in the United States and Canada, CE in the European Union, and multiple domestic and international patents (certificate numbers: M377678, M385174, M513193, etc.). All ATEN's racks are fully manufactured in Taiwan, adhering strictly to the EIA/ECIA-310-E standards. Whether for cabinet structure or intelligent accessories, ATEN's racks meet the stringent requirements of data centers and IDC rooms for efficient energy management and security protection.

The ATEN Slide and Rotate Rack adopts open-frame design, featuring pull-out and 360° rotation functions, making it easy to operate when installing equipment or connecting cables. Its flexible structure is perfect for installation inside cabinets, saving valuable space.

Features

- Designed to EIA/ECIA-310-E standards, the robust frame ensures stability and reliable support for installed equipment
- The open-frame structure enables easier and faster equipment installation and adjustments
- The built-in spherical spring plunger allows the rack to rotate 360° and lock at 0°, 90°, 180°, and 270° positions, making it perfect for cabinet installations and space-saving. It is ideal for offices, meeting rooms, classrooms, or AV rooms
- The heavy-duty turntable supports up to 68 kg, ensuring stable support for equipment and preventing deformation or loosening over time
- The rear cable management bar keeps cables organized, maintaining a clean and neat space

Sturdy Frame Structure

Ensures stability

Heavy-Duty Turntable

Supports equipment weight up to 68kg

Spherical Spring Plunger

Allows the rack to rotate 360° and lock at 0°, 90°, 180°, and 270° positions

Specifications

	U spaces	External Height (mm)	External Depth (mm)	External Width (mm)
RC2200	10U	537	570	491
RC2201	12U	626	570	491
RC2202	15U	759	570	491

Note: Shipped in flat-pack packaging.
