Independent Auditors' Report

To the Board of Directors of ATEN INTERNATIONAL CO., LTD.:

Opinion

We have audited the consolidated financial statements of ATEN INTERNATIONAL CO., LTD. and its subsidiaries ("the Group"), which comprise the consolidated balance sheet as of December 31, 2025 and 2024, the consolidated statement of comprehensive income, changes in equity and cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of ATEN INTERNATIONAL CO., LTD. and its subsidiaries as of December 31, 2025 and 2024, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers and with the International Financial Reporting Standards ("IFRSs"), International Accounting Standards ("IASs"), interpretation developed by the International Financial Reporting Interpretations Committee ("IFRIC") or the former Standing Interpretations Committee ("SIC") endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China.

Basis for Opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with The Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis of our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements for the year ended December 31, 2025. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. Revenue recognition

Please refer to notes 4(n) and 6(q) for disclosure related to revenue recognition.

Description of key audit matter:

Revenue is the key indicator used by investors and management while evaluating ATEN INTERNATIONAL CO., LTD. and its subsidiaries' financial or operating performance. The accuracy of the timing and amount of revenue recognized have significant impact on the financial statements, for which the assumptions and judgments of revenue recognition rely on subjective judgment of the management. Hence, we consider it as the key audit matter.

How the matter was addressed in our audit:

The key audit procedures performed included testing the effectiveness of the design and implementation of internal control (both manual and system controls) of sales and collecting cycle; reviewing significant sales contract to determine whether the key judgments and assumptions of revenue recognition are reasonable; analyzing the changes in top 10 customers from the most recent period and last year, and the changes in the price and quantity of each category of product line to determine whether there are any significant misstatements; selecting sales transactions from a period of time before and after the balance sheet date, and verifying them with the vouchers to determine the accuracy of the timing and amounts of revenue recognized; understanding whether there is a significant subsequent sales return or discount; and reviewing whether the disclosure of revenue made by the management is appropriate.

2. Inventory measurement

Please refer to notes 4(h), 5, and 6(f) for disclosure related to inventory measurement.

Description of key audit matter:

The inventory is measured at the lower of cost and net realizable value. Due to the update of technology, the inventory might be out of date or no longer meets the requirement of the market, which may result in a decline on the price of the product resulting in the cost of the inventory to be higher than the net realizable value. The measurement of inventory depends on the evaluation of the management based on several evidence. Therefore, we consider it as a key audit matter.

How the matter was addressed in our audit:

The key audit procedures performed is to understand the management's accounting policy of inventory measurement and determine whether it is reasonable and is being implemented. The procedures include inspecting the method of inventory valuation assumption is consistently and evaluating whether the assumption is needed to be adjusted due to the operating and economic condition change. Obtaining the inventory valuation table, understanding the net realizable values by management and the variation of the prices, in the period after the reporting date, to ensure the appropriateness of the valuation price. Reviewing the reason and verifying the accuracy on past three years and current year's allowance of inventory. Assessing whether the disclosure of provision for inventory valuation is appropriate.

Other Matter

ATEN INTERNATIONAL CO., LTD. has prepared its parent company only financial statements as of and for the years ended December 31, 2025 and 2024, on which we have issued an unmodified opinion.

Responsibilities of Management and Those Charged with Governance for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Securities Issuers and IFRSs, IASs, IFRIC, SIC endorsed and issued into effect by the Financial Supervisory Commission of the Republic of China, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing ATEN INTERNATIONAL CO., LTD. and its subsidiaries' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate ATEN INTERNATIONAL CO., LTD. and its subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance (including the Audit Committee) are responsible for overseeing ATEN INTERNATIONAL CO., LTD. and its subsidiaries' financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgment and professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of ATEN INTERNATIONAL CO., LTD. and its subsidiaries' internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on ATEN INTERNATIONAL CO., LTD. and its subsidiaries' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause ATEN INTERNATIONAL CO., LTD. and its subsidiaries to cease to continue as a going concern.

5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the group financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Huang, Po-Shu and Wu, Chung-Shun.

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

For the years ended December 31, 2025 and 2024

(Expressed in Thousands of New Taiwan Dollars, Unless Otherwise Specified)

(1) Company history

ATEN INTERNATIONAL CO., LTD. (the “Company”) was incorporated on July 6, 1979, under the laws of the Republic of China (ROC). The Company and its subsidiaries (the “Group”) are mainly engaged in the manufacturing and trading of computer peripheral equipment, manufacturing of wired and wireless communication equipment, and manufacturing of electronic modules and parts.

(2) Approval date and procedures of the consolidated financial statements

These consolidated financial statements were authorized for issuance by the Board of Directors on March 10, 2026.

(3) New standards, amendments and interpretations adopted:

- (a) The impact of the IFRS Accounting Standards endorsed by the Financial Supervisory Commission, R.O.C. which have already been adopted.

The Group has initially adopted the following new amendments, which do not have a significant impact on its consolidated financial statements, from January 1, 2025:

- Amendments to IAS21 “Lack of Exchangeability”

- (b) The impact of IFRS Accounting Standards endorsed by the FSC but not yet effective

The Group assesses that the adoption of the following new amendments, effective for annual period beginning on January 1, 2026, would not have a significant impact on its consolidated financial statements:

- IFRS 17 “Insurance Contracts” and amendments to IFRS 17 “Insurance Contracts”
- Amendments to IFRS 9 and IFRS 7 “Amendments to the Classification and Measurement of Financial Instruments”
- Annual Improvements to IFRS Accounting Standards— Volume 11
- Amendments to IFRS 9 and IFRS 7 “Contracts Referencing Nature-dependent Electricity”

Notes to the Consolidated Financial Statements

- (c) The impact of IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

The following new and amended standards, which may be relevant to the Group, have been issued by the International Accounting Standards Board (IASB), but have yet to be endorsed by the FSC:

| Standards or Interpretations | Content of amendment | Effective date per IASB |
|---|---|--------------------------------|
| IFRS 18 “Presentation and Disclosure in Financial Statements” | <p>The new standard introduces three categories of income and expenses, two income statement subtotals and one single note on management performance measures. The three amendments, combined with enhanced guidance on how to disaggregate information, set the stage for better and more consistent information for users, and will affect all the entities.</p> <ul style="list-style-type: none"> ● A more structured income statement: under current standards, companies use different formats to present their results, making it difficult for investors to compare financial performance across companies. The new standard promotes a more structured income statement, introducing a newly defined ‘operating profit’ subtotal and a requirement for all income and expenses to be allocated between three new distinct categories based on a company’s main business activities. ● Management performance measures (MPMs): the new standard introduces a definition for management performance measures, and requires companies to explain in a single note to the financial statements why the measure provides useful information, how it is calculated and reconcile it to an amount determined under IFRS Accounting Standards. ● Greater disaggregation of information: the new standard includes enhanced guidance on how companies group information in the financial statements. This includes guidance on whether information is included in the primary financial statements or is further disaggregated in the notes. | January 1, 2027 (Note) |

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Note: On September 25, 2025, the FSC issued a press release announcing that Taiwan will adopt IFRS 18 beginning in 2028. Entities that need to adopt the new standard earlier may do with the endorsement of the FSC.

The Group is evaluating the impact on its consolidated financial position and consolidated financial performance upon the initial adoption of the abovementioned standards or interpretations. The results thereof will be disclosed when the Group completes its evaluation.

The Group does not expect the following other new and amended standards, which have yet to be endorsed by the FSC, to have a significant impact on its consolidated financial statements:

- Amendments to IFRS 10 and IAS 28 “Sale or Contribution of Assets Between an Investor and Its Associate or Joint Venture”
- IFRS 19 “Subsidiaries without Public Accountability: Disclosures” and amendments to IFRS 19 “Subsidiaries without Public Accountability: Disclosures”
- Amendments to IAS 21 “Translation to a Hyperinflationary Presentation Currency”

(4) Summary of material policies

(a) Statement of compliance

These consolidated financial statements have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Securities Issuers (hereinafter referred to as the Regulations) and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations endorsed by the FSC.

(b) Basis of preparation

(i) Basis of measurement

The consolidated financial statements have been prepared on a historical cost basis, unless otherwise stated (Refer to the summary of the significant accounting policies).

(ii) Functional and presentation currency

The functional currency of each Group entity is determined based on the primary economic environment in which the entity operates. The Group's consolidated financial statements are presented in New Taiwan dollars (NTD), which is Company's functional currency. The assets and liabilities of foreign operations are translated into the Group's presentation currency at the exchange rates at the reporting date. The income and expenses of foreign operations are translated to the Group's functional currency at the average rate. Foreign currency differences are recognized in other comprehensive income. All financial information presented in NTD has been rounded to the nearest thousand.

Notes to the Consolidated Financial Statements

(c) Basis of consolidation

(i) Principles of preparation of the consolidated financial statements

The consolidated financial statements comprise the Company and its subsidiaries. The financial statements of subsidiaries are included in the consolidated financial statements from the date that control commences until the date that control ceases. Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have a deficit balance.

Intra-group balances and transactions, and any unrealized income and expenses arising from intra-group transactions are eliminated in preparing the consolidated financial statements.

Changes in the Group's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. Any difference between the amount by which the non-controlling interests are adjusted and the fair value of the consideration paid or received will be recognized directly in equity, and the Group will attribute it to the owners of the parent.

Notes to the Consolidated Financial Statements

(d) Foreign currency

Transactions in foreign currencies are translated into the respective functional currencies of Group entities at the exchange rates at the dates of the transactions. At the end of each subsequent reporting period, monetary items denominated in foreign currencies are translated into the functional currencies using the exchange rate at that date. Non-monetary items denominated in foreign currencies that are measured at fair value are translated into the functional currencies using the exchange rate at the date that the fair value was determined. Nonmonetary items denominated in foreign currencies that are measured based on historical cost are translated using the exchange rate at the date of the transaction.

Exchange differences are generally recognized in profit or loss, except for those differences relating to the following, which are recognized in other comprehensive income:

- (i) an investment in equity securities designated as at fair value through other comprehensive income;
- (ii) a financial liability designated as a hedge of the net investment in a foreign operation to the extent that the hedge is effective; or
- (iii) qualifying cash flow hedges to the extent that the hedges are effective.

When the settlement of a monetary receivable from or payable to a foreign operation is neither planned nor likely to occur in the foreseeable future. Exchange differences arising from such a monetary item that are considered to form part of the net investment in the foreign operation are recognized in other comprehensive income.

(e) Classification of current and non-current assets and liabilities

The Group classifies the asset as current under one of the following criteria, and all other assets are classified as non-current.

- (i) It is expected to be realized, or intended to be sold or consumed, in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is expected to be realized within twelve months after the reporting period; or
- (iv) The asset is cash or a cash equivalent (as defined in IAS 7) unless the asset is restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group classifies the liability as current under one of the following criteria, and all other liabilities are classified as non-current.

- (i) It is expected to be settled in the normal operating cycle;
- (ii) It is held primarily for the purpose of trading;
- (iii) It is due to be settled within twelve months after the reporting period; or
- (iv) The Group does not have the right at the end of the reporting period to defer settlement of the liability for at least twelve months after the reporting period.

(f) Cash and cash equivalents

Cash comprises cash in hand and demand deposits. Cash equivalent refers to short term investments with high liquidity that are subject to insignificant risk of changes in their fair value and can be cashed into fixed amount of money. Time deposits which meet the above definition and are held for the purpose of meeting short-term cash commitments rather than for investment or other purpose should be recognized as cash equivalent.

(g) Financial instruments

Trade receivables issued are initially recognized when they are originated. All other financial assets and financial liabilities are initially recognized when the Group becomes a party to the contractual provisions of the instrument. A financial asset (unless it is a trade receivable without a significant financing component) or financial liability is initially measured at fair value plus, for an item not at fair value through profit or loss (FVTPL), transaction costs that are directly attributable to its acquisition or issue. A trade receivable without a significant financing component is initially measured at the transaction price.

(i) Financial assets

On initial recognition, a financial asset is classified as Financial assets measured at amortized cost, Fair value through other comprehensive income (FVOCI) or Fair value through profit or loss (FVTPL).

Financial assets are not reclassified subsequent to their initial recognition unless the Group changes its business model for managing financial assets, in which case all affected financial assets are reclassified on the first day of the first reporting period following the change in the business model.

1) Financial assets measured at amortized cost

A financial asset is measured at amortized cost if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

These assets are subsequently measured at amortized cost, which is the amount at which the financial asset is measured at initial recognition, plus/minus, the cumulative amortization using the effective interest method, adjusted for any loss allowance. Interest income, foreign exchange gains and losses, as well as impairment, are recognized in profit or loss. Any gain or loss on derecognition is recognized in profit or loss.

2) Fair value through other comprehensive income (FVOCI)

A debt investment is measured at FVOCI if it meets both of the following conditions and is not designated as at FVTPL:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

A financial asset measured at FVOCI is initially recognized at fair value, plus any directly attributable transaction costs. These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, foreign exchange gains and losses, and impairment losses, deriving from debt investments are recognized in profit or loss; whereas dividends deriving from equity investments are recognized as income in profit or loss, unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses of financial assets measured at FVOCI are recognized in OCI. On derecognition, gains and losses accumulated in OCI of equity investments are reclassified to profit or loss. However, gains and losses accumulated in OCI of debt investments are reclassified to retain earnings instead of profit or loss.

Dividend income derived from equity investments is recognized on the date that the Group's right to receive payment is established, which in the case of quoted securities is normally the ex-dividend date.

3) Fair value through profit or loss (FVTPL)

All financial assets not classified as amortized cost or FVOCI described as above are measured at FVTPL, including derivative financial assets. On initial recognition, the Group may irrevocably designate a financial asset, which meets the requirements to be measured at amortized cost or at FVOCI, as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

These assets are subsequently measured at fair value. Net gains and losses, including any interest or dividend income, are recognized in profit or loss.

4) Impairment of financial assets

The Group recognizes loss allowances for expected credit losses (ECL) on financial assets measured at amortized cost.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group measures loss allowances at an amount equal to lifetime ECL, except for the following which are measured as 12-month ECL:

- debt securities that are determined to have low credit risk at the reporting date; and
- other debt securities and bank balances for which credit risk (i.e. the risk of default occurring over the expected life of the financial instrument) has not increased significantly since initial recognition.

Loss allowance for trade receivables are always measured at an amount equal to lifetime ECL.

Lifetime ECL are the ECL that result from all possible default events over the expected life of a financial instrument.

12-month ECL are the portion of ECL that result from default events that are possible within the 12 months after the reporting date (or a shorter period if the expected life of the instrument is less than 12 months).

The maximum period considered when estimating ECL is the maximum contractual period over which the Group is exposed to credit risk.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating ECL, the Group considers reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis based on the Group's historical experience and informed credit assessment as well as forward-looking information.

The Group considers a debt security to have low credit risk when its credit risk rating is equivalent to the globally understood definition of 'investment grade which is considered to be BBB- or higher per Standard & Poor's, Baa3 or higher per Moody's or twA or higher per Taiwan Ratings'.

The Group assumes that the credit risk on a financial asset has increased significantly if it is more than 30 days past due.

The Group considers a financial asset to be in default when the borrower is unlikely to pay its credit obligations to the Group in full.

ECLs are a probability-weighted estimate of credit losses. Credit losses are measured as the present value of all cash shortfalls (i.e. the difference between the cash flows due to the Group in accordance with the contract and the cash flows that the Group expects to receive). ECLs are discounted at the effective interest rate of the financial asset.

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

At each reporting date, the Group assesses whether financial assets carried at amortized cost and debt securities at FVOCI are credit-impaired. A financial asset is ‘credit-impaired’ when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred. Evidence that a financial asset is credit-impaired includes the following observable data:

- significant financial difficulty of the borrower or issuer;
- a breach of contract such as a default or being more than 90 days past due;
- the lender of the borrower, for economic or contractual reasons relating to the borrower's financial difficulty, having granted to the borrower a concession that the lender would not otherwise consider;
- it is probable that the borrower will enter bankruptcy or other financial reorganization;
or
- the disappearance of an active market for a security because of financial difficulties.

Loss allowances for financial assets measured at amortized cost are deducted from the gross carrying amount of the assets. For debt securities at FVOCI, the loss allowance is recognized in other comprehensive income instead of reducing the carrying amount of the asset.

The gross carrying amount of a financial asset is written off (either partially or in full) to the extent that there is no realistic prospect of recovery. For corporate customers, the Group individually makes an assessment with respect to the timing and amount of write-off based on whether there is a reasonable expectation of recovery. The Group expects no significant recovery from the amount written off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's procedures for recovery of amounts due.

5) Derecognition of financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group enters into transactions whereby it transfers assets recognized in its statement of balance sheet, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

(ii) Financial liabilities and equity instruments

1) Financial liabilities

Financial liabilities are classified as measured at amortized cost or FVTPL. A financial liability is classified as at FVTPL if it is classified as held-for-trading, it is a derivative or it is designated as such on initial recognition. Financial liabilities at FVTPL are measured at fair value and net gains and losses, including any interest expense, are recognized in profit or loss.

Other financial liabilities are subsequently measured at amortized cost using the effective interest method. Interest expense and foreign exchange gains and losses are recognized in profit or loss. Any gain or loss on derecognition is also recognized in profit or loss.

2) Derecognition of financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expire. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value.

On derecognition of a financial liability, the difference between the carrying amount of a financial liability extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

3) Offsetting of financial assets and liabilities

Financial assets and financial liabilities are offset and the net amount presented in the statement of balance sheet when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realize the asset and settle the liability simultaneously.

(iii) Derivative financial instruments

The Group holds derivative financial instruments to hedge its foreign currency and interest rate exposures. Derivatives are initially measured at fair value. Subsequent to initial recognition, derivatives are measured at fair value, and changes therein are recognized in profit or loss.

(h) Inventories

Inventories are measured at the lower of cost and net realizable value. The cost of inventories consists of all costs of purchase, costs of conversion, and other costs incurred in bringing the inventories to their present location and condition. Subsequent to initial recognition, inventories are measured at the lower of cost or net realizable value and the cost of inventories is based on the standard cost principle. Net realizable value is the estimated selling price in the ordinary course of business, less the estimated costs of completion and selling expenses at the end of the period. The differences between standard and actual costing are fully classified as operating costs. When the cost of inventories is higher than the net realizable value, the inventories are written down to net realizable value, and the write down amount is charged to current year's cost of goods sold.

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

(i) Property, plant and equipment

(i) Recognition and measurement

Items of property, plant and equipment are measured at cost, which includes capitalized borrowing costs, less accumulated depreciation and any accumulated impairment losses.

If significant parts of an item of property, plant and equipment have different useful lives, they are accounted for as separate items (major components) of property, plant and equipment.

Any gain or loss on disposal of an item of property, plant and equipment is recognized in profit or loss.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the Group.

(iii) Depreciation

Depreciation is calculated on the cost of an asset less its residual value and is recognized in profit or loss on a straight-line basis over the estimated useful lives of each component of an item of property, plant and equipment.

Land is not depreciated.

The estimated useful lives for the current and comparative years of significant items of property, plant and equipment are as follows:

| | |
|---------------------|------------|
| Land improvements | 3 years |
| Buildings | 2~61 years |
| Machinery equipment | 3~10 years |
| Other equipment | 1~12 years |

Depreciation methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(j) Leases

At inception of a contract, the Group assesses whether a contract is, or contains, a lease. A contract is, or contains, a lease if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

(i) As a lessee

The Group recognizes a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at, or before, the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The right-of-use asset is subsequently depreciated using the straight-line method from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term. In addition, the right-of-use asset is periodically reduced by using the impairment losses, if any, and adjusted for certain remeasurements of the lease liability.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be reliably determined, the Group's incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- fixed payments, including in-substance fixed payments;
- variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- amounts expected to be payable under a residual value guarantee; and
- payments for purchase or termination options that are reasonably certain to be exercised.

The lease liability is measured at amortized cost using the effective interest method. It is remeasured when:

- there is a change in future lease payments arising from the change in an index or rate; or
- there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee; or
- there is a change of its assessment of the underlying asset purchase option; or
- there is a change of its assessment on whether it will exercise an extension or termination option; or
- there is any lease modification

When the lease liability is remeasured, other than lease modifications, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or in profit and loss if the carrying amount of the right-of-use asset has been reduced to zero.

When the lease liability is remeasured to reflect the partial or full termination of the lease for lease modifications that decrease the scope of the lease, the Group accounts for the remeasurement of the lease liability by decreasing the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize in profit or loss any gain or loss relating to the partial or full termination of the lease.

The Group presents its right-of-use assets that do not meet the definition of investment and its lease liabilities as a separate line item respectively in the statement of financial position.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group has elected not to recognize the right-of-use assets and lease liabilities for its short-term leases of office equipment and other equipment that have a lease term of 12 months or less and leases of low-value assets. The Group recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

(ii) As a lessor

When the Group acts as a lessor, it determines, at lease commencement, whether each lease is a finance lease or an operating lease. To classify each lease, the Group makes an overall assessment of whether the lease transfers to the lessee substantially all of the risks and rewards of ownership incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then the lease is an operating lease. As part of this assessment, the Group considers certain indicators such as whether the lease is for the major part of the economic life of the asset.

(k) Intangible assets

(i) Recognition and measurement

Other intangible assets, including customer relationships, patents and trademarks, that are acquired by the Group and have finite useful lives are measured at cost less accumulated amortization and any accumulated impairment losses.

(ii) Subsequent expenditure

Subsequent expenditure is capitalized only when it increases the future economic benefits embodied in the specific asset to which it relates. All other expenditure, including expenditure on internally generated goodwill and brands, is recognized in profit or loss as incurred.

(iii) Amortization

Amortization is calculated over the cost of the asset, less its residual value, and is recognized in profit or loss on a straight-line basis over the estimated useful lives of intangible assets, other than goodwill, from the date that they are available for use.

The estimated useful lives for current and comparative periods are as follows:

| | |
|---------------------------|-----------|
| 1) Patents | 3~5 years |
| 2) Trademarks | 3 years |
| 3) Customer relationships | 5 years |

Amortization methods, useful lives and residual values are reviewed at each reporting date and adjusted if appropriate.

(l) Impairment – Non-financial assets

At each reporting date, the Group reviews the carrying amounts of its non-financial assets (other than inventories and deferred tax assets) to determine whether there is any indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

For impairment testing, assets are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of an asset or CGU is the greater of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset or CGU.

An impairment loss is recognized if the carrying amount of an asset or CGU exceeds its recoverable amount. Impairment losses are recognized in profit or loss. They are allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amounts of the other assets in the CGU on a pro rata basis.

(m) Provisions

A provision is recognized if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation. Provisions are determined by discounting the expected future cash flows at a pre-tax rate that reflects the current market assessments of the time value of money and the risks specific to the liability. The unwinding of the discount is recognized as finance cost.

(n) Revenue

Revenue is measured based on the consideration to which the Group expects to be entitled in exchange for transferring goods or services to a customer. The Group recognizes revenue when it satisfies a performance obligation by transferring control of a good or a service to a customer. The accounting policies for the Group's main types of revenue are explained below.

(i) Sale of goods

The Group is mainly engaged in the manufacture and trading of computer peripheral products. The Group recognizes revenue when control of the products has been transferred. When the products are delivered to the customer, the customer has full discretion over the channel and price to sell the products, and there is no unfulfilled obligation that could affect the customer's acceptance of the products. Delivery occurs when the products have been shipped to the specific location, the risks of obsolescence and loss have been transferred to the customer, and either the customer has accepted the products in accordance with the sales contract and the acceptance provisions have lapsed, or the Group has objective evidence that all criteria for acceptance have been satisfied.

The Group often offers volume discounts to its customers based on aggregate sales of electronic components in the contractual period. Revenue from these sales is recognized based on the price specified in the contract, net of the estimated volume discounts. Accumulated experience is used to estimate the discounts using the expected value method, and revenue is only recognized to the extent that it is highly probable that a significant reversal will not occur. A contract liability is recognized for expected volume discounts payable to customers in relation to sales made until the end of the reporting period.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group's obligation to provide a refund for faulty electronic components under the standard warranty terms is recognized as a provision for warranty; please refer to note 6(k).

A receivable is recognized when the goods are delivered as this is the point in time that the Group has a right to an amount of consideration that is unconditional.

(ii) Construction contracts

The Group enters into contracts to management of IT infrastructure. Because its customer controls the asset as it is constructed, the Group recognizes revenue over time on the basis of the construction costs incurred to date as a proportion of the total estimated costs of the contract.

The consideration promised in the contract includes fixed and variable amounts. The customer pays the fixed amount based on a payment schedule. For variable considerations, the Group estimates the amount of variable consideration using the most likely amount. If the Group has recognized revenue, but not issued a bill, then the entitlement to consideration is recognized as a contract asset. The contract asset is transferred to receivables when the entitlement to payment becomes unconditional.

If the Group cannot reasonably measure its progress towards complete satisfaction of the performance obligation of a construction contract, the Group shall recognize revenue only to the extent of the costs expected to be recovered.

Estimates of revenues, costs or extent of progress toward completion are revised if circumstances change. Any resulting increases or decreases in estimated revenues or costs are reflected in profit or loss in the period in which the circumstances that give rise to the revision become known by management.

(o) Employee benefits

(i) Defined contribution plans

Obligations for contributions to defined contribution plans are expensed as the related service is provided.

(ii) Defined benefit plans

The Group's net obligation in respect of defined benefit pension plans is calculated separately for each plan by estimating the amount of future benefit that employees have earned in the current and prior periods; discounting that amount and deducting the fair value of any plan assets.

The calculation of defined benefit obligations is performed annually by a qualified actuary using the projected unit credit method. When the calculation results in a potential asset for the Group, the recognized asset is limited to the present value of economic benefits available in the form of any future refunds from the plan or reductions in future contributions to the plan. To calculate the present value of economic benefits, consideration is given to any applicable minimum funding requirements.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Remeasurements of the net defined benefit liability, which comprise actuarial gains and losses, the return on plan assets (excluding interest) and the effect of the asset ceiling (if any, excluding interest), are recognized immediately in other comprehensive income, and accumulated in retained earnings within equity. The Group determines the net interest expense (income) on the net defined benefit liability (asset) for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then-net defined benefit liability (asset). Net interest expense and other expenses related to defined benefit plans are recognized in profit or loss.

When the benefits of a plan are changed or when a plan is curtailed, the resulting change in benefit that relates to past service or the gain or loss on curtailment is recognized immediately in profit or loss. The Group recognizes gains and losses on the settlement of a defined benefit plan when the settlement occurs.

(iii) Short-term employee benefits

Short-term employee benefits are expensed as the related service is provided. A liability is recognized for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

(p) Income tax

Income taxes comprise current taxes and deferred taxes. Except for expenses related to business combinations or recognized directly in equity or other comprehensive income, all current and deferred taxes are recognized in profit or loss.

Current taxes include tax payables and tax deduction receivables on taxable gains (losses) for the year calculated using the statutory tax rate on the reporting date or the actual legislative tax rate, as well as tax adjustments related to prior years.

Deferred taxes arise due to temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and their respective tax bases. Deferred taxes shall not be recognized for the below exceptions:

- (i) Assets and liabilities that are initially recognized but are not related to the business combination and have no effect on net income or taxable gains (losses) during the transaction.
- (ii) Temporary differences arising from equity investments in subsidiaries or joint ventures where there is a high probability that such temporary differences will not reverse.
- (iii) Initial recognition of goodwill.

Deferred taxes are measured at tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Deferred income tax assets and liabilities may be offset against each other if the following criteria are met:

- (i) The entity has the legal right to settle tax assets and liabilities on a net basis; and
- (ii) The taxing of deferred income tax assets and liabilities fulfill one of the below scenarios:
 - 1) levied by the same taxing authority; or
 - 2) levied by different taxing authorities, but where each such authority intends to settle tax assets and liabilities (where such amounts are significant) on a net basis every year of the period of expected asset realization or debt liquidation, or where the timing of asset realization and debt liquidation is matched.

Deferred tax assets are recognized for the carry forward of unused tax losses, unused tax credits, and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be utilized. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realized.

(q) Earnings per share

The Group discloses the Company's basic and diluted earnings per share attributable to ordinary equity holders of the Company. The calculation of basic earnings per share is based on the profit attributable to the ordinary shareholders of the Company divided by the weighted-average number of ordinary shares outstanding. The calculation of diluted earnings per share is based on the profit attributable to ordinary shareholders of the Company, divided by the weighted-average number of ordinary shares outstanding after adjustment for the effects of all dilutive potential ordinary shares.

When computing diluted earnings per share, all potential share are considered outstanding shares for the current period; therefore, both profit attributable to ordinary shareholders and outstanding shares should be adjusted for the impact of potential shares. Employee bonuses in the form of stock of the Company are accounted for as potential shares.

(r) Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the Group). Operating results of the operating segment are regularly reviewed by the Group's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance. Each operating segment consists of standalone financial information.

(5) Significant accounting assumptions and judgments, and major sources of estimation uncertainty

In preparing these consolidated financial statements, management has made judgments and estimates about the future, including climate-related risks and opportunities, that affect the application of the accounting policies and the reported amount of assets, liabilities, income and expenses. Actual results may differ from these estimates.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

Estimates and underlying assumptions are reviewed on an ongoing basis and are consistent with the Group's risk management and climate-related commitments where appropriate. Revisions to estimates are recognised prospectively in the period of the change and future periods.

Information about assumptions and estimation uncertainties that have a significant risk of resulting in a material adjustment within the next financial year is as follows:

Valuation of inventories

As inventories are stated at the lower of cost or net realizable value, the Group estimates the net realizable value of inventories for obsolescence and unmarketable items at the end of the reporting period and then writes down the cost of inventories to net realizable value.

(6) Explanation of significant accounts

4) Expenses recognized in profit or loss

The expenses recognized in profit or loss for the Group were as follows:

| | <u>2025</u> | <u>2024</u> |
|---|------------------------|---------------------|
| Current service cost | \$ 613 | 508 |
| Net interest on the defined benefit liability | <u>1,312</u> | <u>1,480</u> |
| | <u><u>\$ 1,925</u></u> | <u><u>1,988</u></u> |
| | <u>2025</u> | <u>2024</u> |
| Operating costs | \$ 550 | 568 |

| Research and development expenses | <u>149</u> | <u>137</u> |
| | <u><u>\$ 1,925</u></u> | <u><u>1,988</u></u> |

5) Actuarial assumptions

The following are the Group's principal actuarial assumptions at the reporting dates:

| | <u>2025.12.31</u> | <u>2024.12.31</u> |
|------------------------------|-------------------|-------------------|
| Discount rate | 1.34%~1.35% | 1.5~1.55% |
| Future salary increases rate | 2.50%~3.00% | 2.50%~3.00% |

The Group expects to make contributions of \$2,121 thousand to the defined benefit plans in the next year starting from the reporting date of 2025.

The weighted average duration of the defined benefit obligation is 6.8~7.6 years.

6) Sensitivity analysis

When calculating the present value of the defined benefit obligation, the Company uses judgments and estimations to determine the actuarial assumptions, including employee turnover rates and future salary changes, as of the financial statement date. Any changes in the actuarial assumptions may significantly impact the amount of the defined benefit obligation.

As of December 31, 2025 and 2024, the present value of defined benefit obligation impact was as follow:

| | The impact on defined benefit obligation | |
|-------------------------------------|---|-----------------|
| | Increase | Decrease |
| December 31, 2025 | | |
| Discount rate (0.25%) | \$ (1,398) | 1,439 |
| Future salary increase rate (1.00%) | 5,929 | (5,392) |
| December 31, 2024 | | |
| Discount rate (0.25%) | (1,569) | 1,617 |
| Future salary increase rate (1.00%) | 6,738 | (6,104) |

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown above. The method used in the sensitivity analysis is consistent with the calculation of pension liabilities in the balance sheets.

There is no change in the method and assumptions used in the preparation of sensitivity analysis for 2025 and 2024.

(ii) Defined contribution plans

The Group allocates 6% of each employee's monthly wages to the labour pension personal account at the Bureau of Labor Insurance in accordance with the provisions of the Labor Pension Act. Under this defined contribution plan, the Group allocates a fixed amount to the Bureau of Labor Insurance without additional legal or constructive obligations.

The Group's pension costs under the defined contribution method were \$68,329 thousand and \$62,051 thousand for 2025 and 2024, respectively. Payment was made to the Bureau of Labor Insurance and the local authorities of the consolidated overseas subsidiaries.

(iii) Short-term employee benefit liabilities

(ii) Deferred income tax assets and liabilities

1) Unrecognized deferred income tax assets

The Deferred income tax assets that have not been recognized by the Group are as follows:

| | December 31, 2025 | December 31, 2024 |
|------------|------------------------------|------------------------------|
| Tax losses | \$ 643,747 | 501,900 |

Under the Income Tax Act, the operating loss as examined and assessed by the local tax authorities could be carried forward for use as a deduction from taxable income over a period of prior years. Deferred income tax assets have not been recognized in respect of these items because it is not probable that the future taxable profit will be available, against which, the Group can utilize the benefits therefrom.

As of December 31, 2025, the amount of tax losses is not yet recognized as deferred tax assets and the expiry year were as follows:

| Year of expiration | Amount |
|---------------------------|-------------------|
| 2026 | \$ 43,128 |

(iii) Examination and Approval

The tax returns of the Company have been assessed by the tax authorities for all years through 2022.

(o) Capital and other equity

(i) Common stock

As of December 31, 2025 and 2024, the total value of nominal ordinary shares amounted to \$1,500,000 thousand, face value of each share is \$10, of which 150,000 thousand shares, 119,471 thousand shares were issued. All issued shares were paid up upon issuance.

(ii) Additional paid-in capital

In accordance with the ROC Company Act, realized capital reserves can only be reclassified as share capital or distributed as cash dividends after offsetting losses. The aforementioned capital reserves include share premiums and donation gains. In accordance with the Securities Offering and Issuance Guidelines, the amount of capital reserves to be reclassified under share capital shall not exceed 10% of the actual share capital amount.

(iii) Retained earnings

The Company's amended articles of incorporation stipulates that the Company's earnings distribution may be made on a quarterly basis after the close of each quarter. When allocating earnings, the Company shall first estimate and reserve the remuneration to employees and the taxes to be paid, offset prior years' deficits, provide 10% as legal reserve, provide or reverse a special reserve in accordance with relevant laws or regulations or as requested by authorities in charge. After the abovementioned appropriations, the distribution of the remaining earnings, if any, by way of stock dividends should be proposed by the board of directors and is subject to the stockholders' approval; by way of cash dividends should be approved by the board of directors. The Company's net earnings from the current year shall be used to pay income tax, offset prior years' deficits, provide 10% as legal reserve, provide or reverse a special reserve in accordance with relevant laws or regulations or as requested by authorities in charge. After the abovementioned appropriations, the distribution of the remaining earnings, if any, should be proposed by the board of directors and is subject to the stockholders' approval. For earning distribution issued in cash may be passed by the Board of Directors with more than two-thirds of the directors' attendance, and be resolved by more than half of the directors, then be reported to the shareholders' general meeting.

The Company's business cycle is in the constant growth stage. In consideration of the Company's future capital requirements, its long term financial plan and shareholders' satisfaction as to cash inflow, the Company's articles of incorporation stipulate that the board of directors may propose 30% or more of the distributable earnings as dividends, of which at least 10% should be distributed as cash dividends. However, such distribution depends on the current earnings and the capital condition, and is subject to the approval of stockholders.

1) Legal reserve

In accordance with the Company Act, when distributing the earnings, 10% should be set aside as legal reserve, until it is equal to authorized capital. If the Company experienced profit for the year, the distribution of the statutory earnings reserve, either by new shares or by cash, shall be decided at the shareholders meeting, and the distribution amount is limited to the portion of legal reserve which exceeds 25% of the paid-in capital.

2) Special earnings reserve

In accordance with Ruling No.1010012865 issued by the Financial Supervisory Commission on 6 April 2012, a portion of current-period earnings and undistributed prior-period earnings shall be reclassified as a special earnings reserve during earnings distribution. The amount to be reclassified should equal to the current-period total net reduction of other shareholders' equity. Similarly, a portion of undistributed prior period earnings shall be reclassified as a special earnings reserve (and does not qualify for earnings distribution) to account for cumulative changes to other shareholders' equity pertaining to prior periods. Amounts of subsequent reversals pertaining to the net reduction of other shareholders' equity shall qualify for additional distributions.

(r) Remuneration to employees, directors and supervisors

On May 28, 2025, the Company resolved at the shareholders' meeting to amend its Articles of Incorporation. According to the amended Articles, if the Company has profit in a given fiscal year, the profit shall be used to offset against any accumulated losses incurred by the Company. The remainder, if any, 10%~16% shall be allocated as employee remuneration (including a minimum of 15%~35% to those base-level employees) and a maximum of 2% as remunerations for directors and supervisors. The amounts of employee, directors' and supervisors' remuneration, to be distributed in cash or stock, should be decided in the board meeting, with two thirds of the board members attending the meeting, and over half of the attendees approving the amounts for distribution that are to be reported at the shareholders meeting. The recipients of the aforementioned employee remuneration, whether in the form of shares or cash, may include employees of the subsidiaries who meet certain specific requirements.

In accordance with the Company's articles before amendment, the net income before tax, after deducting the remuneration to employees, directors and supervisors, shall first be offset against any deficit, then 10%~16% will be distributed as employee remuneration and less than 2% will be allocated as directors' and supervisors' remuneration. The amounts of employee, directors' and supervisors' remuneration, to be distributed in cash or stock, should be decided in the board meeting, with two thirds of the board members attending the meeting, and over half of the attendees approving the amounts for distribution that are to be reported at the shareholders meeting. Employees who are entitled to receive the above-mentioned employee remuneration, in share or cash, include the employees of the subsidiaries of the Group who meet certain specific requirement.

For the years ended December 31, 2025 and 2024, the Company estimated its employee remuneration amounting to \$77,465 thousand and \$104,184 thousand, and directors' and supervisors' remuneration amounting to \$5,164 thousands and \$8,335 thousands, respectively. The estimated amounts mentioned above are calculated based on the net profit before tax, excluding the remuneration to employees, directors and supervisors of each period, multiplied by the percentage of remuneration to employees, directors and supervisors as specified in the Company's articles. These remunerations were expensed under operating costs or operating expenses during 2025 and 2024. Related information would be available at the Market Observation Post System website. The amounts, as stated in the consolidated financial statements, are identical to those of the actual distributions for 2025 and 2024.

2) Sensitivity analysis

The Group's exposure to foreign currency risk arises from the translation of foreign currency exchange gains and losses on cash and cash equivalents, trade and other receivables, loans and borrowings, and trade and other payables that are denominated in foreign currency. A 1% appreciation or depreciation of the NTD against the USD, JPY, EUR, CNY, GBP and THB as of December 31, 2025 and 2024 would have increased or decreased the net profit by \$6,412 thousand and \$7,109 thousand, respectively. The analysis is performed on the same basis for both periods.

3) Foreign exchange gain and loss on monetary item

Since the Group books its transaction in different functional currencies, the information on foreign exchange gains (loss) on monetary items is disclosed based on the total amount. For the December 31, 2025 and 2024, foreign exchange gains (including realized and unrealized portion) amounted to \$(5,859) thousand and \$20,249 thousand, respectively.

(iv) Interest rate analysis

Please refer to the note for liquidity risk management and the interest rate exposure to the Group's financial assets and liabilities.

The following sensitivity analysis is based on the risk exposure of the interest rate on derivative and non-derivative financial instruments on the reporting date. Regarding assets with variable interest rates, the analysis is on the basis of the assumption that the amount of assets outstanding at the reporting date was outstanding throughout the year. The rate of change is expressed as the interest rate increases or decreases by 1% when reporting to management internally, which also represents the management of the Group's assessment on the reasonably possible interval of interest rate change.

With all other variable factors remain constant. If the interest rate increases or decreases by 1%, the effect on the Group's income before tax is not material for the years ended December 31, 2025 and 2024.

(v) Fair value and carrying amount

1) Categories and fair value of financial instruments

Except for the followings, carrying amount of the Group's financial assets and liabilities are valued approximately to their fair value, and are not based on observable market date and the value measurements which are not reliable. No additional fair value disclosure is required in accordance to the Regulations.

2) Valuation techniques in financial instruments measured at fair value

a) Non – derivative financial instruments

If there are quoted prices in the active markets for financial instruments, the fair value of those prices may be based on the quoted market prices. The market prices announced by Securities Exchange and Over the Counter are the benchmarks of the fair value of equity instruments and Liability instruments trading in active markets.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES

Notes to the Consolidated Financial Statements

The fair value of financial assets and liabilities traded in the active markets will be based on the quoted market prices when the quoted prices can be obtained from the exchanges, brokers, underwriters, industrial unions, pricing service agencies or authorities, as well as if they can represent as the one usually traded in fair market transaction in practice. If the requirements above mentioned don't actually accomplish, the market ought to be seen inactive condition. Generally speaking, the index of inactive market are based on the large difference of the price between buying and selling transaction, the difference of the price between buying and selling transaction distinctively increasing or little quantity of trading volume.

The fair values of the Group's financial instruments trading in active markets are categorized by types and nature as follows:

Stocks of listed Companies and open-ended funds are financial assets possessing standard provision and trading in active markets. Their fair values are determined based on the market quotes and net assets value, respectively.

In addition to the aforementioned financial instruments trading in active markets, the fair values of other financial instruments are obtained through valuation or by referencing the quotes from counterparties. Such valuation technique involves referencing the fair value of financial instruments that are virtually alike in terms and characteristic, and using discounted cash flow model or other pricing models. Other pricing models may utilize the available market information on the balance sheet date such as yield curve from Over the Counter and the average quotes on the interest rates of Reuters Commercial Paper.

b) Derivative financial instrument

Derivatives are priced based on the pricing models widely accepted by markets. Forward Exchange Contracts are normally priced based on the current forward exchange rates or the forward interest rate estimated using interest rate parity theory.

3) Fair value hierarchy

The Company used the fair value that can be observed in the market to measure the value of assets and liabilities. Fair values levels are based on the degree in which the fair value can be observed and grouped in to Levels 1 to 3 as follows:

- a) Level 1: quoted prices (unadjusted) in active markets for identified assets or liabilities.
- b) Level 2: inputs, other than the quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- c) Level 3: inputs for assets or liabilities that are not based on observable market data (unobservable inputs).

There was no such situation that the Company reclassified the financial instruments from one level to another as of the reporting date.

4) Transfers between level 1 and level 2

There was no significant transfer from level 2 financial instrument to level 1 financial instrument.

5) Reconciliation of Level 3 fair values

| | Fair value through other comprehensive income <hr/> Unquoted equity instruments |
|--|--|
| Balance at January 1, 2025 | \$ 12,080 |
| Recognized in other comprehensive income | (2,976) |

| Balance at December 31, 2024 | <u><u>\$ 12,080</u></u> |

The aforementioned gains or losses were listed in “Unrealized gains (losses) from financial assets at fair value through other comprehensive income”.

6) Quantified information on significant unobservable inputs (Level 3) used in fair value measurement

Quantified information of significant unobservable inputs was as follows:

| Item | Valuation technique | Significant unobservable inputs | Inter-relationship between significant unobservable inputs and fair value measurement |
|---|--------------------------------|---|--|
| Financial assets at fair value through other comprehensive income equity investments without an active market | Comparative company | <ul style="list-style-type: none"> · Multipliers of price-book ratios as of December 31, 2024 were 1.13. · Multipliers of price-earnings ratio as of December 31, 2024 was 24.25. · Market illiquidity discount rate as of December 31, 2024 were 20%. | <p>The estimated fair value would increase (decrease) if</p> <ul style="list-style-type: none"> · the multiplier were higher (lower) · the market illiquidity discount were lower (higher) |

- 7) Fair value measurements in Level 3— sensitivity analysis of reasonably possible alternative assumptions

For fair value measurements in Level 3, changing one or more of the assumptions would have the following effects on profit or loss and other comprehensive income:

| December 31, 2024 | <u>Input</u> | <u>Assumptions</u> | <u>Other comprehensive income</u> | |
|---|---------------------------|--------------------|-----------------------------------|--------------------|
| | | | <u>Favorable</u> | <u>Unfavorable</u> |
| Financial assets at fair value through other comprehensive income | | | | |
| Equity investments without an active market | Liquidity discount at 20% | 5% | 755 | (755) |

The favorable and unfavorable effects represent the changes in fair value, and the fair value is based on a variety of unobservable inputs calculated using a valuation technique.

(u) Financial risk management

(i) Overview

The Group is exposed to the following risks arising from financial instruments:

- 1) Credit risk
- 2) Liquidity risk
- 3) Market risk

This note expresses the information on risk exposure and objectives, policies and process of risk measurement and management. For detailed information, please refer to the related notes to each risk.

(ii) Risk management framework

The Board of Directors has overall responsibility for the establishment and oversight of the risk management framework. The Board has established the Risk Management Committee, which is responsible for developing and monitoring the Group's risk management policies. The committee reports regularly to the Board of Directors on its activities.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect changes in market conditions and the Group's activities. The Group, through their training and management standards and procedures, aims to develop a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Board of Directors oversees how management monitors the risk which should be in compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. The Board of Directors is assisted in its oversight role by the Internal Audit. The Internal Audit undertakes both regular and ad hoc reviews of risk management controls and procedures, the results of which are reported to the Board of Directors.

(iii) Credit risk

Credit risk is the risk of financial loss to the Group if a customer, financial institution, or counterparty fails to meet its contractual obligations and arises principally from the Group's receivables from its customers, financial instruments, or non-public trading securities.

1) Trade and other receivables

The Group's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the demographics of the Group's customer base, including the default risk of the industry and country in which customers operate, as these factors may have an influence on credit risk, particularly during deteriorating economic circumstances. The counterparties of the Consolidated Companies' notes and accounts receivable are predominantly concentrated in Asia, which accounted for 61% and 62% of the total amount of notes and accounts receivable as of December 31, 2025 and 2024, respectively.

The Group has established a credit policy, under which, each new customer is analyzed individually for creditworthiness before the Group's standard payment and delivery terms and conditions are offered. The Group's review includes external ratings, when available, and in some cases bank references. Purchase limits are established for each customer, which represent the maximum open amount without requiring approval from the Board of Directors; these limits are reviewed regularly.

The Group has established an allowance for bad debt account to reflect the estimated losses for trade, other receivables, and investment. The allowance for bad debt account consists of specific losses relating to individually significant exposure and the unrecognized losses arising from similar assets groups. The allowance for bad debt account is based on the historical collection record of similar financial assets.

2) Investments

The credit risk exposure in the bank deposits, fixed income investments and other financial instruments are measured and monitored by the Group's finance department. Since the Group's transactions are with the counterparties, and the contractually obligated counterparties are the banks, financial institutions, corporate organizations and government agencies with good credits, there are no compliance issues, and therefore, there is no significant credit risk.

(iv) Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Group's approach to managing liquidity is to ensure, as far as possible, that it always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Group's reputation.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group uses activity-based costing to estimate the cost of its products and services, which assists it in monitoring cash flow requirements and optimizing its cash return on investments. The Group aims to maintain the level of its cash and cash equivalents and other highly marketable debt investments at an amount in excess of the expected cash flows on financial liabilities (other than trade payables) over the succeeding 60 days. The Group also monitors the level of expected cash outflows on trade and other payables. This excludes the potential impact of extreme circumstances that cannot reasonably be predicted, such as natural disasters. The Group has unused short-term bank facilities of \$3,718,562 thousand and \$3,179,207 thousand, respectively, as of December 31, 2025 and 2024.

(v) Market Risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates, and equity prices, will affect the Group's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

1) Currency risk

The Group is exposed to currency risk on sales, purchases, and borrowings that are denominated in a currency other than the respective functional currencies of the Group. The currencies used in these transactions are the EUR, USD, JPY, GBP, THB, KRW and CNY.

The Group holds accounts receivable denominated on the currency other than functional currency. Gains or losses on change of exchange rate and that on long-term and short-term borrowings denominated in foreign currency can offset each other, reducing the currency risk of the Group.

The interest is denominated in the currency used in the borrowings. Generally, borrowings are denominated in currencies that match the cash flows generated by the underlying operations of the Group, primarily the NTD, EUR, USD, THB, GBP, KRW and CNY.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Group ensures that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

2) Interest rate risk

The Group's short-term borrowings are liabilities which are affected by the fluctuation of interest rates. Accordingly, changes in market rate would affect the effective interest rate and the future cash flow to alter.

3) Other market price risk

Financial assets at fair value through profit or loss—current and available-for-sale financial assets—current are listed stocks and mutual funds, which may fluctuate with changes in equity price. In order to manage market risk, the Group carefully selects trust companies with good reputations to engage in financial instrument transactions.

(Continued)

ATEN INTERNATIONAL CO., LTD. AND SUBSIDIARIES
Notes to the Consolidated Financial Statements

The Group's bank balances and financial liability— short-term and long-term borrowings are exposed to the cash flow risk arising from changes in interest rates. However, the impact of the cash flow risk arising from changes in interest rate is not expected to be significant.

(v) Capital management

The Group's objectives for managing capital are to safeguard the capacity to continue to operate, to provide a return to shareholders and benefits to other related parties, and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the dividend payment to the shareholders, or issue new shares to settle long-term liabilities.

The Group uses the debt ratio to manage capital. This ratio divides debt by total assets. The debt from the balance sheet is accounted for as total liabilities. Total assets include share capital, capital surplus, retained earnings, other equity and non-controlling interest, plus, debt; the Group may also use its equity ratio, computed as one, less, its debt ratio, as a basis in managing its capital.

The Group's debt and equity ratio at the end of the reporting date were as follow:

| | <u>December 31,</u> <u>2025</u> | <u>December 31,</u> <u>2024</u> |
|-------------------|------------------------------------|------------------------------------|
| Total liabilities | <u>\$ 2,148,377</u> | <u>2,248,607</u> |
| Total assets | <u>\$ 7,048,406</u> | <u>7,123,598</u> |
| Equity ratio | <u>70 %</u> | <u>68 %</u> |

As of December 31, 2025, there were no changes in the Group's approach of capital management.

(w) Investing and financing activities not affecting current cash flow

The Group's investing and financing activities which did not affect the current cash flow in the years ended December 31, 2025 and 2024, were as follows:

For right-of-use assets under leases, please refer to note 6(h).

Notes to the Consolidated Financial Statements

- (b) The Company filed criminal charges against its former employees for not following its policy, wherein they illegally gained profit for themselves during their service in 2015 to 2016. The suspects have already resigned from the Company at the end of 2016. After the Company filed the lawsuit, Taiwan Taipei District Court and Taiwan Taipei High Court ruled the defendant to be guilty and made the sentence in July 2019 and February 2020, respectively. The Company and both of the defendant filed appeal to the Taiwan Supreme Court in March 2020. The Supreme Court rendered a judgement on March 19, 2021 and declared that both defendants committed Subparagraph 2, Paragraph 1, Article 171 of Securities and Exchange Act for making the Company process the non-arm's length transactions and were both sentenced 32 months in prison. Both defendants turned in the criminal proceeds plus the interest amounted to \$3,174 thousand and \$3,342 thousand should be returned to the Company. The seized \$70,296 thousand and \$6,516 thousand criminal proceeds were returned to the Company in 2019 and 2021. In a civil action, the Taiwan Taipei District Court rendered a first-instance judgment in favor of the Company in June 2024. The defendants filed appeals. Upon the Company's application for compulsory enforcement with the Taiwan Taipei District Court, the Company collected enforcement proceeds amounting to \$1,194 thousand in January 2026 and obtained a certificate of claim for the portion not fully satisfied. With respect to the first item of the operative provisions of the first-instance judgment, the Taiwan High Court rendered a judgment in October 2025, ordering the defendants to jointly and severally pay principal and interest amounting to \$15,646 thousand. The defendants' appeals were dismissed by the Taiwan High Court due to failure to pay the required court fees, and the judgment became final and binding in January 2026.

Please refer to 13(a) item No. 6 for further information.

(14) Segment information:

(a) **General information**

The Group has two reportable segments: computer peripheral equipment segment and specialized printing segment. The computer peripheral equipment segment is primarily involved in the production and sales of computer peripheral equipment. The specialized printing segment is primarily involved in the printing of advertisements.

The reportable segments are the Group's strategic divisions, offering different products and services. Because each strategic division requires different technology and marketing strategies, each division is managed separately.

(b) **Information on the reportable segment's profit or loss, assets, liabilities, and their measurement and reconciliations**

The Group uses the internal management report (that the chief operating decision maker reviews) as the basis to determine resource allocation and make a performance evaluation. The internal management report (including profit before taxation, but not including any extraordinary activity and foreign exchange gain or losses due to taxation, extraordinary activity and foreign exchange gain or losses) are managed on a group basis, and hence, they are not able to be allocated to each reportable segment. In addition, not all reportable segments include depreciation and amortization of significant non-cash items. The reportable amount is consistent with that in the report used by the chief operating decision maker.
